

## ZJY-700N INTELLIGENT CONTROL SYSTEM

- ① Automatic liquid nitrogen filling;
- ② Special structure to prevent liquid nitrogen splashing;
- ③ Hot air bypass function;
- ④ Platinum resistance temperature sensor;
- ⑤ Differential pressure level sensor;
- ⑥ Automatic recording level, temperature and other data;
- ⑦ Local monitoring center;
- ⑧ Cloud monitoring and management center;
- ⑨ A variety of alarm self-diagnosis;
- ⑩ SMS remote alarm;
- ⑪ Action permission settings;
- ⑫ Run / alarm parameters settings;
- ⑬ Sound and light abnormal alarm to remind;
- ⑭ Backup power and UPS power supply.
